Who’s talking about your research?

Thousands of conversations about scholarly content happen online every day. Altmetric tracks a range of sources to capture and collate this activity, helping you to monitor and report on the attention surrounding the work you care about.

Kudos for Researchers

Increase the reach and impact of your publications

Kudos is a free service through which you can broaden readership and increase the impact of your research. Kudos is more than just a networking site, and more than just a publication listing. It is a toolkit for explaining your work in plain language and for enriching it with links to related materials (watch a video about explaining and enriching). Kudos also provides a unique one-stop shop for multiple metrics relating to your publications: page views, citations, full text downloads and altmetrics. When you explain, enrich and share your work through Kudos, we map your actions against these metrics in charts that show which activities are most effective when it comes to increasing the reach and impact of your work (watch a video about sharing your work).

Get Found
By sharing your work, and creating simple descriptions that we can share on your behalf, you maximize the likelihood of the right people finding and

Get Read
Plain language descriptions help others in your field to filter more of the literature and determine which works to read in depth. They also make your

Get Cited
Broadening your readership helps ensure the maximum possible exposure and impact for your work.

Get Started
Kudos is quick to use, and free for researchers. Start enhancing the impact of your publications now.

Publications

Zika Virus and Birth Defects--Reviewing the Evidence for Causality.
Songa Rasmussen, Denise Jamieson, Margaret A. Honan, Lyie Petersen  (2016)

Zika Virus Associated with Microcephaly.
Jenaj Milanac, Mla Kova, Nataša Tuh, Mara Popovic, Matjaž Poljačk-Prijatelj, 9 more... (2016)

A widespread epidemic of Zika virus (ZIKV) infection was reported in 2015 in South and Central America and the Caribbean. A major concern associated with this infection is the apparent increased incidence of microcephaly in fetuses born to mothers infected with ZIKV. In this report, we describe...

1. From ORCID profile

Import your biography and articles from your ORCID account. If needed, below you can Update ORCID permissions or Edit ORCID profile. After clicking on Refresh from ORCID, your ORCID records will be automatically imported to ScienceOpen. ScienceOpen requires a valid ID (DOI, PMC, ArXiv or DOAJ ID) in order to validate articles added to your profile. ORCID offers support in adding content via standard databases.

2. Claim your articles | 42 matching

Here you can select your publications and confirm authorship. Click on the Claim authorship button to confirm each of your publications. These records will be added to your publications.

Helicobacter

The 5300-year-old Helicobacter pylori genome of the Iceman.

Frank Maxner, Ben Krause-Kyora, Dmitrij Turanov, Alexander Herbig, Michael K Hoopmann, 18 more... (2016)

The stomach bacterium Helicobacter pylori is one of the most prevalent human pathogens. It has dispersed globally with its human host, resulting in a distinct phylogeographic pattern that can be used.

Global burden of cancers attributable to infections in 2008: a review and synthetic analysis.

Jacques Ferlay, Martyn Plummer, Freddie Bray, Silvia Franceschi, Jerome Vignat, 2 more... (2012)

Infections with certain viruses, bacteria, and parasites have been identified as strong risk factors for specific cancers. An update of their respective contribution to the global burden of cancer is warranted.
