**To make the voice of

First International Congress of the Students of United Europe and Russia

"MY VOICE FOR EUROPE"

It is a unique event, giving European students the opportunity to discuss different aspects of the Modern Europe: lectures, workshops and other activities will be divided into several topics such as:

Economic and Monetary Affairs
Human Rights
Employment and Social Affairs
Multiculturalism
Enlargement
Foreign and Security Policy
Information Society
Research and Innovation

The aim of this event is to prepare good background for future congresses. Conclusions worked out by the participants will be gathered in the form of a report and sent to the European Parliament to make the voice of European students be heard in Brussels.

In addition, the programme will be complemented by cultural activities and excursions outside the Academy.

The best speeches will be chosen for publication in a book which will follow the Congress.

The Congress has been planned to strengthen cooperation between various European Universities and to give young people the chance to meet and talk on important issues.

The Congress promotes internationalization as well as students' and staff mobility. Funding is possible through LLP-Erasmus staff mobility both for teaching staff and members of administration. A more detailed programme will be provided at a later stage. If you are interested contact us through e-mail:
