

eass Conference 2012

Sport in Globalised Societies Changes and Challenges 20-23 June 2012 Berne, Switzerland

Call for Papers

Topic

The development of modern sport is closely linked to globalisation. The process of globalisation has caused significant changes, transforming sport into a transnational phenomenon. At the same time, sport continues to be deeply affected by regional cultures and local actors. These influences will be analysed from an international and comparative perspective, offering the opportunity for critical reflection and for the discussion of prevailing challenges.

Within the main topic we want to have a broad thematic focus on social issues relating to questions concerning sport and globalisation. Abstracts on both, theoretical and empirical, perspectives are welcome. Besides oral presentations we are planning to organise a poster session which will be placed well within the conference programme.

Thematic Symposia

We will organise specific thematic symposia for the following subtopics in cooperation with partner organisations:

- Swiss Sport Research and Globalisation (in cooperation with the Research Committee Sociology of Sport of the Swiss Sociological Association)
- Sport and Migration (in cooperation with the Section of Sport Sociology, German Society of Sport Science)
- Challenges of Sport Participation Research (in cooperation with the Meeting for European Sport Participation and Sport Culture Research)
- Body, Gender and Ethnicity (in cooperation with European Sociological Association Research Network 28 "Society and Sports")

Possible Subtopics for Parallel Sessions

All participants are invited to submit an abstract for an oral or a poster presentation. One or several thematic parallel sessions will be scheduled according to the number of abstracts submitted and accepted. We will incorporate several similar topics into one session if necessary. The Abstract must be typed or pasted into the Abstract Submission Form. Abstracts are restricted to a maximum of 3,000 characters (including spaces and references) and may not contain any tables or graphs.

References in the text have to be cited at the end of the abstract (they must fit within the 3,000 character limit). All abstract content is in the sole responsibility of the author(s) of the abstract. The receipt of your abstract submission will be confirmed by e-mail within 7 days of submission.

Information regarding deadlines and the review process will be announced at a later date.

Young Researcher Award (YRA)

The European Association for Sociology of Sport is proud to announce the 4th eass Young Researcher's Award. The aim of the award is to encourage the integration of outstanding graduate students and young researchers into the European community of sociology of sport scholars. The award will be granted to an academic paper authored by a young researcher, which is deemed by a panel of judges to be of highest quality. The winning author will be invited to receive the award and present the paper(s) at the eass Conference in Berne 2012. The winning paper may be considered for publication in the *European Journal for Sport and Society* (ejss).

For further information see: <http://www.eass2012.ch/YRA.html>.
