

Save the Date – **Intensive Course** in Sport & Exercise Psychology for  
Master Students, March 22-26, 2021  
*in Leipzig, Germany*

We are very much looking forward to hosting the Intensive Course for master students in Sport and Exercise Psychology at Leipzig University from **March 22<sup>nd</sup> to 26<sup>th</sup> 2021**.

Many years ago, Bob Dylan sang “Times there a-changing” and we will also adapt the format of the IC in 2021. This means that the lectures by internationally distinguished experts will come to your desk live from Leipzig. The aim is to provide you with more in-depth knowledge around research and practical experience in the field of Sport and Exercise Psychology. The course, which will be conducted in English, will enable multicultural communication, networking, and collaboration among the students and the experts.

This course is mainly for master students, however, also PhD students and individuals with a degree in physical education, sport science, or psychology are welcome. You will be able to enjoy a total of 15 lectures by experts from 8 European countries and you will receive a certificate after the course. The course fee is 40 Euros.

In case the pandemic allows we will also offer a limited number of seats. This would then enable participants to experience Leipzig with a great guided walking tour as well as the historically renowned University of Leipzig, especially, the Faculty of Sport Science. This course provides a great opportunity to expand your network and enjoy a multicultural experience regardless of whether you attend digitally or in person.

We look forward to your registration by February 1, 2021.

Anne-Marie Elbe, Nadja Walter, and Franzi Lautenbach

For further information see
